

Brent Craig Christner

Department of Microbiology
and Cell Science
University of Florida
Gainesville, FL 32603
Email: xner@ufl.edu
Website: www.brent.xner.net
Phone: (352) 392-3261

Birth date: July 31, 1970
Citizenship: U.S.A.

Home:

Education:

Ph.D., Microbiology, The Ohio State University, Columbus, Ohio, 2002.
Thesis advisors: John N. Reeve, Lonnie G. Thompson, and Ellen Mosley-Thompson

M.S., Microbiology, University of Dayton, Dayton, Ohio, 1996.
Thesis advisor: John J. Rowe

B.S., Molecular Biology and Biotechnology, Westminster College, New Wilmington, Pennsylvania, 1992.

Supplemental Coursework:

National Science Foundation Antarctic Biology Course, January 2001. McMurdo Station, Antarctica.

Microbial Diversity Course, June-July 1999. Marine Biological Laboratory, Woods Hole, Massachusetts.

Professional Experience:

Associate Professor, 2016-. Department of Microbiology and Cell Science, University of Florida, Gainesville, Florida.

Visiting Researcher, 2014. Institut National de la Recherche Agronomique, Unité de Pathologie Végétale, Montfavet, France.

Associate Professor, 2011-2015. Department of Biological Sciences, Louisiana State University, Baton Rouge, Louisiana.

Assistant Professor, 2006-2011. Department of Biological Sciences, Louisiana State University, Baton Rouge, Louisiana.

Assistant Research Professor, 2004-2006. Department of Land Resources and Environmental Sciences, Montana State University, Bozeman, Montana.

Postdoctoral Researcher, 2002-2004. Laboratory of John C. Priscu, Department of Land Resources and Environmental Sciences, Montana State University, Bozeman, Montana.

Graduate Research Assistant, 1997-2002. Laboratories of John N. Reeve, Ellen Mosley-Thompson, and Lonnie Thompson, Department of Microbiology and The Byrd Polar Research Center, The Ohio State University, Columbus, Ohio.

Teaching Assistant, 1994-1995. Department of Biology, University of Dayton, Dayton, Ohio.

Research Associate in Molecular Biology, 1992-1993. Laboratory of John R. Hassell, Eye and Ear Institute, University of Pittsburgh Medical Center, Pittsburgh, Pennsylvania.

Publications:

Peer-reviewed articles:

Geomicrobiology of subglacial meltwater samples from Store Landgletscher and Russell Glacier, West Greenland. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 3-7, 2012.

Broemsen, E.L., K.D. Webster, M. Dieser, L.M. Pratt, and B.C. Christner. 2012. Analysis of methanogenic and methanotrophic activity at the western margin of the Greenland Ice Sheet. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 3-7, 2012.

Liu, L., R.S. Sletten, B. Hagedorn, K. Choquette, K. Cameron, M. Dieser, B.C. Christner, Z. Harrold, and K. Junge. 2012. Understanding of silicate weathering in subglacial environment by inverse modeling of West Greenland glacial meltwater. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 3-7, 2012.

Hagedorn, B., K. Choquette, R.S. Sletten, M. Dieser, K. Cameron, L. Liu, Z. Harrold, B.C. Christner, and K. Junge. 2012. Seasonal changes of chemical, isotopic and microbiological signatures in meltwater outflows of the West Greenland Ice Sheet. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 3-7, 2012.

Brox T. I., J.R. Brown, J.D. Seymour, M.L. Skidmore, C. Wang, B.-H. Luo, A.M. Achberger, B.C. Christner, and S.L. Codd. 2012. NMR investigation of the impact of ice binding proteins on polycrystalline ice. Oral presentation at the 11th International Bologna Conference on Magnetic Resonance in Porous Media. University of Surrey, Guildford, UK, 9-13 September 2012.

B. Christner. 2012. Meteorological, climatic, and ecological roles of airborne biological ice nucleators: moving beyond the hype. Oral presentation at the Bioaerosol Effects on Clouds Workshop. Steamboat, CO, 5-6 August 2012.

B. Christner, J. Priscu, M. Skidmore, S. Tulaczyk, R. Edwards, and R. Bolsey. 2012. The WISSARD Project strategy for microbiologically clean drilling and subglacial access. Oral presentation at the XXXII Scientific Committee for Antarctic Research Open Science Conference. Portland, OR, 11-14 July 2012.

Adkins, W.P., and B.C. Christner. 2012. Enrichment of iron and sulfur oxidizing microbes from polar environments. Poster presentation at the 2012 General Meeting for the American Society of Microbiology. San Francisco, CA, 16-19 June 2012.

Skidmore, M.L., T.I. Brox, S.J. Vogt, J.R. Brown, J.D. Seymour, S.L. Codd, C. Wang, B.-H. Luo, A.M. Achberger, and B.C. Christner. 2012. Investigating the impact of an ice binding protein on the liquid vein network in polycrystalline ice using magnetic resonance techniques. Oral presentation at the 2012 General Meeting for the American Society of Microbiology. San Francisco, CA, 16-19 June 2012.

Christner, B.C., A.M. Achberger, T.I. Brox, and M.L. Skidmore. 2011. Expression and Characterization of an Ice Binding Protein from a Bacterium Isolated at a Depth of 3,519 Meters in the Vostok Ice Core, Antarctica. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 4-9, 2011.

Montross, S.N., M.L. Skidmore, **B.C. Christner**, R. Griggs, J. Tison, and T.A. Sowers. Microbial activity in debris-rich basal ice; adaptation to sub-zero, saline conditions. Oral presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 4-9, 2011.

Christner, B.C., S.M. Montross, M.L. Skidmore, P. Amato, S.M. Doyle, and A.M. Achberger. 2011. Microbial processes relevant to survival in ice of the englacial and basal zones of polar glaciers. Invited oral presentation at the 4th International Conference on Polar and Alpine Microbiology. Ljubljana, Slovenia, 4-8 September 2011.

Christner, B.C. 2011. Cloudy with a chance of microbes – Lingering questions about the nature and role of biological ice nucleators in the atmosphere. Invited oral presentation at the 2011 General Meeting for the American Society of Microbiology. New Orleans, LA, 21-24 May 2011.

Adkins, W.P., N. Bryan, **B.C. Christner**, T.G. Guzik, M.F. Stewart, and J.R. Giammanco. 2011. High altitude microbiological sampling with a latex sounding balloon. Poster presentation at the 2011 General Meeting for the American Society of Microbiology. New Orleans, LA, 21-24 May 2011.

Achberger, A.M., T. Brox, M.L. Skidmore, and **B.C. Christner**. 2011. Temperature independent expression of an ice binding protein in an Antarctic bacterium. Poster presentation at the 2011 General Meeting for the American Society of Microbiology. New Orleans, LA, 21-24 May 2011.

Doyle, S., S. Montross, M. Skidmore, and **B. Christner**. 2011. Evidence for a metabolically active microbial assemblage in a subglacial habitat. Outstanding student poster selection at the 2011 General Meeting for the American Society of Microbiology. New Orleans, LA, 21-24 May 2011.

Christner, B.C. 2011. Subglacial environments: the *other* deep biosphere. Invited Astrobiology Program Research Seminar, University of Washington, Department of Earth and Space Sciences, 5 April 2011.

Christner, B.C. 2011. The lower temperature limit for life. Invited presentation for the Committee on Planetary Protection Standards for Icy Bodies in the Outer Solar System, Space Studies Board, National Research Council, 31 January-2 February 2011.

Christner, B.C., S.M. Doyle, S.N. Montross, M.L. Skidmore, D. Samyn, R. Lorrain, J. Tison, and S. Fitzsimons. 2010. A subzero microbial habitat in the basal ice of an Antarctic glacier. Invited oral presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 13-17, 2010.

Christner, B.C., P. Amato, J.R. Battista, and S.M. Doyle. 2010. Implications of subzero metabolism on long-term microbial survival in ice. Invited poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 13-17, 2010.

Montross, S.N., M.L. Skidmore, **B.C. Christner**, S.M. Doyle, J. Tison, D. Samyn, and T.A. Sowers. 2010. Determining the importance of microbial processes on gas composition in debris-rich Antarctic basal ice using isotope geochemistry. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 13-17, 2010.

Adkins, W.P., N. Bryan, **B.C. Christner**, T.G. Guzik, M.F. Stewart, J.R. Giammanco. 2010. Microbiological sampling of the atmosphere using a latex sounding balloon. Poster presentation at the American Geophysical Union Fall Meeting. San Francisco, California, December 13-17, 2010.

Christner, B.C. 2010. Microbial life in subglacial Antarctic environments. Charles C. Randall Award Lecture, American Society for Microbiology South Central Branch Meeting, Hattiesburgh, MS, 29-30 October 2010.

Christner, B.C. 2010. Microbiological context for life in a Titanian Ocean. Invited presentation for the Committee on the Origin and Evolution of Life, Space Studies Board – Board on Life Sciences, National Research Council, 13-15 October 2010.

Bryan, N., P. Adkins, J. Giamannco, M. Stewart, G. Guzik, and **B. Christner**. 2010. High Altitude Biological Testing of the ATmosphere (HABITAT): determining the upper boundaries of the biosphere. Poster presentation at the 2010 LaSPACE Council Meeting. Dillard University, Louisiana, 17-18 September 2010.

Priscu, J.C., **B.C. Christner**, J.L. Wadham, M. Tranter, and S. Tulaczyk. 2010. Antarctic subglacial water: habitats for life and sites of biogeochemical transformations. Oral presentation at the XXXI SCAR and Open Science Conference. Buenos Aires, Argentina, 3-6 August, 2010.

Doyle, S., J. Allison, A. Achberger, S. Montross, M. Skidmore, and **B. Christner**. 2010. Evidence for a metabolically active microbial assemblage in Antarctic basal ice. Poster presentation at the XXXI SCAR and Open Science Conference. Buenos Aires, Argentina, 3-6 August, 2010.

Junge, K., B. Nunn, **B. Christner**, and B.D. Swanson. 2010. Examination of Immersion Freezing of Polar Marine Bacteria and Snow through Novel Techniques with Implications for Sea- and Tropospheric-Ice Formation and Life in Frozen Environments. Poster presentation at the 2010 General Meeting for the American Society of Microbiology. San Diego, CA, May 23-27, 2010.

Christner, B.C., J.C. Priscu, J.A. Mikucki, M. Gerasimoff, R. Bolsey, D. Lebar, and C.R. Bentley. 2010. Biologically and Chemically Clean Subglacial Access Drilling. Poster presentation at the 2010 Chapman Conference on the Exploration and Study of

Antarctic Subglacial Aquatic Environments (SAE). Baltimore, Maryland USA, 15–17 March 2010.

Achberger, A.M., T. Brox, J.A. Raymond, S.M. Doyle, B.C Christner, M.L. Skidmore. 2010. Expression of a Bacterial Ice Binding Protein from 3,519 m in the Vostok Ice Core. Poster presentation at the 2010 Chapman Conference on the Exploration and Study of Antarctic Subglacial Aquatic Environments (SAE). Baltimore, Maryland USA, 15–17 March 2010.

Doyle, S.M., A.M. Achberger, S.M. Montross, T. Brox, K. Suematsu, M.L. Skidmore, and B.C. Christner. 2010. Evidence for Microbial Metabolism at -15°C in an Antarctic Subglacial Environment. Poster presentation at the 2010 Chapman Conference on the Exploration and Study of Antarctic Subglacial Aquatic Environments (SAE). Baltimore, Maryland USA, 15–17 March 2010.

Membership in Professional Societies:

American Geophysical Union
American Society of Limnology and Oceanography
American Society for Microbiology

Grants:

Co-Investigator on NSF-AISS grant (11/15-11/16). Whillans Ice Stream Subglacial Access Research Drilling: Integrative Study of Marine Ice Sheet Stability and Subglacial Habitats in West Antarctica. Funding: \$64,355 (subaward).

Co-Investigator on NASA's Undergraduate Student Instrument Project (USIP) Educational Flight Opportunity (9/13-2/15). High Elevation Impact Sampling Tool (HEIST). Funding: \$50,000.

Principal Investigator on National Science Foundation, Dimensions of Biodiversity grant (1/13-12/16). Dimensions: Collaborative Research: Research on Airborne Ice Nucleating Species (RAINS). Funding: \$446,103.

Co-Investigator on grant for the NASA Astrobiology Science and Technology for Exploring Planets (ASTEP) Program (1/11 – 12/14). VALKYRIE 2 (Very-deep Autonomous Laser-powered Kilowatt-class Yo-yoing Robotic Ice Explorer). Funding: \$196,327 (LSU subcontract).

Co-Principal Investigator on National Science Foundation, Arctic Research Opportunities grant (8/10 - 7/13). Collaborative Research: Greenland melt water geomicrobiology. Funding: \$291,353.

Principal Investigator on NASA EPSCoR grant (7/10 - 6/13). Modes of Adaptation, Resistance, and Survival for Life Inhabiting a Freeze-dried-radiation-bathed Environment (MARSLIFE). Total award: \$1,410,000 (Christner funding: \$405,174).

Principal Investigator on grant from the NASA, Astrobiology: Exobiology and Evolutionary Biology Program (6/10 - 5/14). DNA repair under frozen conditions: implications for the longevity of microorganisms in terrestrial and extraterrestrial ices. Funding: \$353,351.

Co-Principal Investigator on grant from the National Science Foundation, Office of Polar Programs (9/09 - 8/15). Collaborative research: WISSARD (Whillans Ice Stream Subglacial Antarctic Research Drilling): Geobiology of Antarctic subglacial environments beneath the Whillans Ice Streams. Funding: \$380,906.

Principal Investigator on grant from the Louisiana Space Consortium (5/09 - 8/10). High Altitude Biological Testing of the Atmosphere (HABITAT): Developing a Sampling Platform to Measure the Upper Boundaries of the Biosphere. Funding: \$38,653 (initial grant of \$33,030 + \$5,623 in supplemental funding).

Co-Principal Investigator on grant from the National Science Foundation, Office of Polar Programs grant award (7/07 - 6/10). Collaborative Research: Biogeochemistry and geomicrobiology of Taylor Glacier basal ice. Funding: \$190,806.

Principal Investigator on grant from the Faculty Research Grant program, LSU Office of Sponsored Programs (6/07 - 5/08). Biological ice nuclei in precipitation. Funding: \$10,000.

Co-Investigator on grant from the National Science Foundation, Research in Biogeosciences (1/06 - 12/09). Microbial Activity in Solid Ice: Implications for Modifying the CO₂ Record in Ice Cores. Funding: \$133,225 (LSU subcontract).

Awards:

2014 Carruth McGehee Award for Excellent Research, College of Science, Louisiana State University.

2011 College of Science Research Award, Louisiana State University.

2010 Charles C. Randall Lectureship Award from the South Central Branch of the American Society for Microbiology.

Louisiana State University "Rainmaker" for 2008 and 2009, an award that recognizes faculty who are nationally and internationally recognized for innovative research and creative scholarship, who compete for external funding at the highest levels and who attract and mentor exceptional graduate students. Awarded by the LSU Office of Research & Economic Development.

Discover Magazine named research on biological ice nuclei in precipitation as one of the "Top 100 stories of 2008".

Antarctic Service Medal of the United States of America from the National Science Foundation for scientific exploration and service in Antarctica. March 1, 2006.

Other awards:

Travel award (\$1,000) from Louisiana State University Office of Research and Economic Development (Faculty Travel Grant program) to attend Goldschmidt 2009, Davos, Switzerland, July 21-26, 2009.

Travel award (\$1,200) from NSF EPSCoR sponsored Travel Grants for Emerging Faculty (TGEF) program to attend the 2009 General Meeting for the American Society of Microbiology. Philadelphia, PA, May 18, 2009.

Travel award (\$1,000) from National Science Foundation to attend the International Union of Geodesy and Geophysics XXIV General Assembly. Perugia, Italy, July 2007.

Travel award (\$1,000) from Louisiana State University Office of Research and Economic Development (Faculty Travel Grant program) to attend the International Union of Geodesy and Geophysics XXIV General Assembly. Perugia, Italy, July 2007.

Summer stipend award (\$5,000) from the Louisiana State University Office of Research and Economic Development, July 2007.

Travel award (\$2,000) from National Science Foundation to attend the Subglacial Antarctic Lake Exploration (SALE) Workshop. Grenoble, France, April 24-26, 2006.

Selection to the NSF Antarctic Biology Course, January 2001, McMurdo Station, Antarctica. Participation is highly competitively (20 students chosen from >300 international applicants) and the course trains young scientists for the rigors of fieldwork in Antarctica.

Award (\$5,000) from The Ohio State University, Department of Microbiology to participate in the Marine Biological Laboratory Microbial Diversity Course, Woods Hole, 1999.

Travel award (\$1,500) from the National Science Foundation to represent the U.S. science community at the NGRIP Basal Ice Meeting. Copenhagen, Denmark. November 29-30, 2004.

Travel award (\$2,500) from the National Science Foundation to attend the SCAR Open Science Conference. Bremen, Germany, July 25-31, 2004.

Student Travel Award (\$500), the American Society of Microbiology, 2001. Grant for travel to an American Society of Microbiology General Meeting.

Summer Research Fellowship (\$1,500), University of Dayton, 1994. Summer stipend awarded to graduate students on a competitive basis.

Summer Undergraduate Fellowship (\$3,000), University of Pittsburgh, 1992. Department of Biological Sciences, laboratories of Roger Hendrix and Graham Hatfull.

Peer Review:*Journals:*

Annals of Glaciology, Antarctic Science, Applied and Environmental Microbiology, Applied Soil Ecology, Archives of Microbiology, Astrobiology, Canadian Journal of Microbiology, Earth and Planetary Science Letters, Environmental Microbiology, Environmental Research Letters, Extremophiles, FEMS Microbiology Ecology, Frontiers in Microbiology, Gene, Genomics, Geobiology, Geophysical Research Letters, Global Biogeochemical Cycles, International Society for Microbial Ecology Journal, Journal of Geophysical Research - Biogeosciences, Journal of Sedimentary Research, Limnology and Oceanography, Limnology and Oceanography-Methods, Microbial Ecology, Nature Geosciences, Nature Reviews Microbiology, Planetary and Space Science, PLoS ONE, Polar Biology, Polar Record, Polar Research, Proceedings of the National Academy of Science (USA), and Reviews in Environmental Science and Biotechnology, and Science.

Grant applications:

Australian Antarctic Division, British Antarctic Survey, Marsden Fund, National Aeronautics and Space Administration (Astrobiology: Exobiology and Evolutionary Biology Program, Astrobiology Science and Technology for Exploring Planets, Earth and Space Science Fellowship Program, Graduate Fellowship Program, and NASA Postdoctoral Program), National Science Foundation (Arctic Sciences, Biogeosciences, Biological Oceanography, Environmental Genomics, GSTEP, Microbial Observatory/Microbial Interactions and Processes, Ocean Sciences, and Office of Polar Programs), Natural Environment Research Council (UK), Swiss National Science Foundation, Villum Foundation, and Washington Sea Grant.

Member of the editorial review board for Annals of Glaciology (2014-), *Frontiers in Extreme Microbiology* (2010-), and *Frontiers in Evolutionary and Genomic Microbiology* (2010-).

Scientific Workshops and Committees:

Member of the Subglacial Access Working Group (SAWG), an advisory committee to the U.S. Ice Drilling Program, 2013-.

Co-Chair, International Scientific Board, 5th International Conference on Polar and Alpine Microbiology, Big Sky, Montana, September 9-12, 2013.

Chair of "Analog" group for the 2012 NASA Astrobiology: Exobiology and Evolutionary Panel, 14-17 August 2012, Washington D.C.

Invited participant to the National Research Council's Planetary Protection Dissemination Workshop, 9-10 July 2012, Washington D.C.

NASA Astrobiology Science and Technology for Exploring Planets panel reviewer, 16-18 January 2012, Washington D.C.

Chair of session "Microbial Diversity and Evolution". Fourth International Conference on Polar and Alpine Microbiology. Ljubljana, Slovenia, 4-8 September 2011.

Member of the Life Sciences Research Development Group (RDG) at Louisiana State University, which advises the LSU Council on Research on matters related to their respective areas of scholarship or research (2011-).

Chair of the Science and Technical Liaison Subcommittee for the WISSARD project (2009-2015).

Member of the US Ice Core Working Group (ICWG) and Sample Allocation Committee (SAC), which provides oversight of the National Ice Core Laboratory, Denver, CO (2007-14).

United States Subglacial Antarctic Lake Environments (US-SALE) Science and Technology Steering Committee. Chair, committee on biology and genomics.

Chair of session "You Call This a Living?: The Microbial Ecology and Biogeochemistry of the Atacama Desert and Antarctic Dry Valleys". Goldschmidt 2009, Davos, Switzerland, July 21-26, 2009.

NSF Antarctic Organisms and Ecosystems panel reviewer, 23-25 September, 2009

NASA Astrobiology: Exobiology and Evolutionary Biology panel reviewer, 13-16 January, 2009, Washington. D.C.

Participant at the WAIS Divide Ice Core Science and Executive Committee Meeting. Denver, CO, 1-3 October 2008.

Participant at the Subglacial Antarctic Lake Exploration (SALE) Workshop. Grenoble, France, April 24-26, 2006.

Invited participant at the Principles of Environmental Stewardship for the Exploration and Study of Subglacial Environments, Subglacial Lakes Meeting. The National Academies, February 13-14, 2006.

Invited US-SALE representative at the International Polar Year Education/Outreach Workshop. NASA Goddard Space Flight Center, Greenbelt, MD, September 8-9, 2005.

United States representative at the North Greenland Ice Core Project (NGRIP) Basal Ice Meeting. Niels Bohr Institute, Copenhagen, Denmark, November 29-30, 2004

Invited participant at the Antarctic Biology Course Workshop, University of California, Santa Cruz, October 2003.

Invited participant at the FASTDRILL Workshop: Polar Research Based on Fast Ice-Sheet Drilling, University of California, Santa Cruz, October 2002.

Participant at the Antarctic Program New Investigators Workshop, National Science Foundation, Washington, D.C., August 2002.

Participant at The Future of U.S. Ice Coring Science Workshop, National Science Foundation, Washington, D.C., March 2002.

Invited consultant for NASA Johnson Space Center, Acquisition and Curation Team. Technical seminar on microbiological contamination issues relevant to the recovery and curation of Martian samples. March 2001.

Outreach and Broader Impacts: (see <http://brent.xner.net/outreach.html>)

Research highlighted in a number of media articles and public broadcasts including: Astrobiology Magazine, BBC Worldwide, Bloomberg News, Chemical and Engineering News, CBC Radio, CBS Sunday Morning, CBS radio, CNN Radio, Discovery Magazine ("Top 100 stories of 2008"), Environmental Research Web, Forum, Geotimes, Globe and Mail, Ivanhoe Newswire, La Presse, LiveScience, KDKA Radio, Live Science, Microbiology Today, Microscopy Today, National Geographic, Nature, Nature Reviews Microbiology, New Scientist, Science Magazine, Science Podcast, Science Friday (NPR), Science Daily, Science Podcast, Scientific American, The Advocate, The Astrobiology Web, The Bozeman Chronicle, The New York Times, The Telegraph, The Washington Post, Time, Wired, WVLA, and Yahoo News.

Participant in Louisiana State University's Microbiology and Food Sciences summer camp 2014 (<https://www.facebook.com/LSUPreCollege>). Graduate students spoke with a group of middle school students about their experiences in science, the logistics of doing field work in an extreme environment, and showed the students microorganisms on a scanning electron microscope.

Participant in Trinity Episcopal Day School's SMART (Science, Math, Art, Religion, and Technology) day, where graduate students shared their experiences working in polar environments with approximately 50 elementary students. Students were able to try on extreme cold weather gear, touch ice from Antarctica, and see pictures from polar field work.

Participant in the inaugural Math/Science Week 2014, hosted by the LSU College of Science. The program is for 8th grade students and designed to ignite an excitement for math and science that students can carry through middle and high school and into their college careers.

Host of research laboratory tour for Grant AP Biology High School (Alexandria, LA) students, February 2013.

Featured scientist in audio segments for Hear the Answer, a media platform produced in partnership with PBS and WETA/Washington, D.C. as a premier science, environmental and technology educational resource for teachers, students, and the public. Segment 1: Why study microbial life in ice? Segment 2: How does life exist when there is no sunlight? Segment 3: What's an internship like in Antarctica? Segment 4: What is it like to camp in Antarctica?

Featured scientist in "Invisible", a documentary special for the History Channel, Flight 33 Productions.

Featured scientist in April 2012 cover story of Discover Magazine, "The clouds are alive".

MARSLIFE project hosted an interactive presentation and demonstration for the Sally Ride Science Festival, 22 September 2012 on the LSU campus. The festival was designed to encourage 5th-8th grade girls in science.

Participant in the EnvironMentors program, a national college access initiative that prepares at-risk high school juniors and seniors for college degree programs in environmental and related science fields, 2011-2013.

Featured scientist in 2011 Simon & Schuster popular science book "First Contact: The Glorious Science of Life Beyond Earth", authored by Washington Post science writer Marc S. Kaufman.

Saturday Science at LSU lecture, "Cool Microbes", 7 May 2011. An outreach program run by the LSU Department of Physics and Astronomy, featuring a monthly lecture series targeting high school students, teachers, and open to the public.

Hosted laboratory tours for the LSU BIOS program August 2007-2010, a 1 week intensive biology "bootcamp" for incoming freshmen at LSU.

National Science Teachers Association Web Seminar, "Under The Ice: Studying One of the Last Unexplored Aquatic Environments on Earth", 27 May 2010. Sponsored by NASA, NOAA, and NSF as an extension of the last International Polar Year (http://learningcenter.nsta.org/products/symposia_seminars/IPY/webseminar3.aspx).

Antarctic research featured on LiveScience.com and National Science Foundation website during June 2010.

Science presentation/demonstration for Louisiana high school students at the Louisiana Junior Science and Humanities Symposia, 14-16 January 2010.

Graduate student Shawn Doyle developed an outreach program with Sulphur High School AP Biology students consisting of an interactive online Antarctic field blog (glacialmicrobes.blogspot.com) and experimentation module.

Participant in PolarTREC during the 2009-2010 Antarctic field season, which is an educational research experience, funded by the NSF and managed by the Arctic Research Consortium, in which K-12 teachers participate in a polar research experience (<http://www.polartrec.com/expeditions/microorganisms-in-antarctic-glacier-ice>).

Featured scientist in "Discovering Astrobiology", an Education and Public Outreach (E/PO) video project in collaboration with the Highland Road Park Telescope Observatory (Baton Rouge, LA). The overall project includes videos, hands-on

activities development for use at the observatory and on the MARS (Mobile Astronomy Research Station) van, and supports student docents at the observatory.

Pre-K and Kindergarten outreach program at University Methodist Preschool and South Boulevard Magnet, Baton Rouge, LA, 2009-10.

Invited speaker for undergraduate student program and seminar in the Biology department at Trinity University, San Antonio, TX. Bioprecipitation and life in the cryoecosphere. November 10, 2008.

Participant in job shadow program with Baton Rouge high school student Torrey Fourier, March 2008.

Participant in POLAR/PLANET-PALOOZA, Baton Rouge, LA, 15-17 November 2007.

Presented public science lecture at McMurdo station, Antarctica in October 2007 entitled "The Antarctic cryoecosphere: a new paradigm for life on Earth".

Invited keynote speaker for Project SCIENCE (Science Content and Investigations to Engage, Nurture and Challenge Educators) workshop, "Life on Earth... and Elsewhere? An Educator Resource Guide in Astrobiology" (September 2006).

Invited speaker for the Space Telescope Science Institute colloquium series, Baltimore, MD. Habitats for life in glacier environments. March 1, 2006.

Assistant instructor for the NSF-sponsored course "Integrative Biology and Adaptation of Antarctic Marine Organisms". McMurdo Station, Antarctica, January-February, 2006.

Participant (2003-2005) in the American Indian Research Opportunities (AIRO) program, which trains underrepresented high school students to conduct and present scientific research.

Public lectures given to middle school science classes (Centerville Middle School, Ohio) and public lectures at the COSI Institute (Toledo, OH) about the relevance of microbiological research in Antarctica.

Contributor to the Digital Educational Resources in Microbial Ecology, Evolution and Diversity (DERMEED-1) library, which is part of the larger Science Math Engineering and Technology Education (SMETE) digital library.

Involved in the making of a film for high school science classes titled "Living Ice", which focuses on microbiological research in Antarctica. The film is accompanied by a hypothesis-based research project and addresses National Science Teaching Standards.

Supervision of Students and Postgraduate Scholars:*High School Students:*

Leona Bird (summer 2003), Sierra Davis (summer 2004), Torrey Fourrier (winter 2008), Fiza Shaikh (2011-2015), and Sunny WhiteMan (summer 2005).

Undergraduate Students:

Syverine Abrahamson (2004-2005), Amanda Achberger (2008-2010), William (Peyton) Adkins (2009-2013), Josh Allison (2010), Brianna Arnold (2003-2005), Ryan Blair (2001-2002), Noelle Bryan (2009-2010), Timothy Brox (2007-2011), Mark Clark (2005-2006), Shawn Doyle (2007-2008), Jennifer Farrar (2013-2014), Aubrey Gilliland (2012-2014), Peyton Graham (2014), Grace Hunt (2014-2015), Sahiti Kilaru (2010-2012), Brian Kvitko (2001-2002), Michelle Nguyen (2007-2010), Erin Oliver (2012-2015), Min So (2009), Charles Taggart (2008), Christina Tran (2011), and Matthew Williams (2013).

Graduate Students:

Amanda Achberger (Ph.D., 2010-), Runa Antony (Visiting PhD Fellow, 2012), Erik Broemsen (M.S., 2009-2013), Noelle Bryan (Ph.D., 2010-), Rongman Cai (M.Ap.Stat., 2006-2007), Shawn Doyle (Ph.D., 2009-2015), Syed Jilani (2012), and Rachel Joyce (PhD., 2014-).

Postdoctoral researchers:

Pierre Amato (2007-2008) Markus Dieser (2010-2013), and Bidyut Mohapatra (2013-2014).

Graduate Student Committees:

Apu Borcar (2009-), Kelley Gwin (2010-2015), Michael Henson (2014-), Brittany Hinyard (2012-2013), Sarah Hird (2011-2013), Caitlin King (2009-2013), Chang Liu (2010), Marisa Myers (2014-), Karine Posbic (2011-), Jana Robins (2008-2011), Udayabharathi (Bharathi) Vallalar (2011-2012), and Carolyn Weber (2007-2009).
